EDUCATION

Shanghai Theatre Academy	Bachelor	Digital Art Design	Sept. 2025–Jun. 2028
Qingdao University	Master	Industrial Design	Sept. 2019–Jun. 2023

WORK EXPERIENCE

Shanghai Timewith Co., Ltd. Mar. 2025–Jun. 2028 Product Intern

- **Brand Visual Design:** *Developed brand guidelines, e-commerce product detail pages, and promotional videos. Participated in the entire creative process, from concept development to final production, ensuring visual consistency with the brand identity and supporting marketing needs during the product's internal testing phase.*
- **Mini-Program UX Optimization:** *Addressed user feedback regarding unclear homepage navigation by restructuring the information architecture and visual hierarchy. Collaborated with developers to optimize icons, typography, and color schemes, improving task completion efficiency and establishing consistent design specifications for development.*
- **Hardware-Software Integration:** *Analyzed user workflows and identified issues related to excessive functionality and poor integration. Worked with the hardware team to simplify voice interaction processes, reduce the learning curve, and improve users' ability to operate devices independently.*

PROJECT EXPERIENCE

Emotion-Oriented Interactive Design for Emotional Regulation

- *Designed a mobile application focused on emotional regulation, integrating art therapy and Kansei Engineering theories to address the emotional well-being needs of a broad user population.*
- *Conducted competitor analysis and user research to identify key design requirements. Developed a mapping matrix connecting users' emotional preferences with design elements, guiding the coordinated design of interface colors and motion effects.*
- *Delivered a high-fidelity interactive prototype and a comprehensive set of design specifications, receiving positive feedback from the academic supervisor and evaluation panel.*

20th Anniversary Promotional Video – Lao Niu Charity Foundation

- *Participated in post-production editing and visual design for the foundation's 20th anniversary promotional video.*
- *Organized and edited extensive video footage, contributed to visual packaging, and carefully controlled the emotional progression and audiovisual rhythm to ensure a polished final production consistent with Mengniu Group's brand standards.*

8th China International "Internet+" College Students Innovation and Entrepreneurship Competition

- *Investigated challenges in indoor planting, including limited space, complex maintenance, and insufficient visual appeal. Conducted desk research and competitor analysis, developed three user personas, and created user journey maps to identify key user needs.*
- *Served as Project Leader, responsible for project planning, task allocation, timeline management, and coordination with team members and the academic supervisor.Led key aspects of proposal writing and presentation development while contributing to product design.*
- *Developed an intelligent, stackable indoor vertical wall-mounted planting system. The project successfully passed final evaluation and was recognized as a national-level project.*

SKILLS&LANGUAGE

Languages: *English(CET-4 & CET-6), Mandarin (native)*

Professional Skill: *Figma, Adobe Creative Suite (Photoshop, Illustrator, InDesign, etc.), C4D,TouchDesigner, Rhion, Keyshot*

AWARDS

- *2023 Huacan Award (North China) – Third Prize*
- *2022 National Undergraduate Industrial Design Competition (Shandong) – Second Prize*
- *10th National Mechanical Innovation Design Competition (Shandong) – Third Prize*
- *19th Shandong Provincial Mechanical & Electrical Product Innovation Competition – Third Prize*
